

***Crater High School
Home Football Policy***

Crater High School is implementing a new policy for their home football games starting this Friday, October 4th. We welcome members of the community, including our future Comets, at our events. Recently, we have had some behavior challenges with younger, unsupervised students. We realize a game with a big crowd is a fun, social environment, and we want people to enjoy themselves. However, our primary focus is always student safety. We are not prepared to provide the level of supervision that younger students need during an event like a high school football game. For this reason we are writing to clarify expectations.

In order to assure a safe and welcoming event for all, we have the following expectations:

- ***Parents are responsible for the supervision of their own children at any high school event.*** Students in 8th grade or below must be accompanied by a responsible adult who will remain at the event. An adult can take responsibility for a maximum of four pre-high school age students.
- Pre-high school age students will not be admitted without an adult.
- Backpacks are not allowed.
- Skateboards, bikes, balls and other toys are not allowed.
- Playing catch, chase, rough housing, or disrupting others from watching the game is not allowed.
- Students congregating in heavily trafficked areas, such as the concession stand and bathrooms, will be asked to move.

Thank you for your cooperation to help make our after-school events a safe, positive experience for all!

David Heard
